

Important Notice from Broadridge Financial Solutions, Inc. About Your Prescription Drug Coverage and Medicare

You are receiving this notice because you (and/or your dependent) currently are, or will be, eligible for Medicare.

Please read this notice carefully and keep it where you can find it. This notice has information about your current prescription drug coverage with Broadridge Financial Solutions, Inc. (Broadridge) and about your options under Medicare's prescription drug coverage. This information can help you decide whether or not you want to join a Medicare drug plan. If you are considering joining, you should compare your current coverage, including which drugs are covered at what cost, with the coverage and costs of the plans offering Medicare prescription drug coverage in your area. Information about where you can get help to make decisions about your prescription drug coverage is at the end of this notice.

There are two important things you need to know about your current coverage and Medicare's prescription drug coverage:

- 1. Medicare prescription drug coverage became available in 2006 to everyone with Medicare. You can get this coverage if you join a Medicare Prescription Drug Plan or join a Medicare Advantage Plan (like an HMO or PPO) that offers prescription drug coverage. All Medicare drug plans provide at least a standard level of coverage set by Medicare. Some plans may also offer more coverage for a higher monthly premium.**
 - 2. Broadridge has determined that the prescription drug coverage offered by the Broadridge medical & prescription plans is, on average for all plan participants, expected to pay out as much as standard Medicare prescription drug coverage pays and is therefore considered Creditable Coverage. Because your existing coverage is Creditable Coverage, you can keep this coverage and not pay a higher premium (a penalty) if you later decide to join a Medicare drug plan.**
-

When Can You Join A Medicare Drug Plan?

You can join a Medicare drug plan when you first become eligible for Medicare and each year from October 15th through December 7th.

However, if you lose your current creditable prescription drug coverage, through no fault of your own, you will also be eligible for a two (2) month Special Enrollment Period (SEP) to join a Medicare drug plan.

What Happens To Your Current Coverage If You Decide to Join A Medicare Drug Plan?

As long as you keep the prescription drug coverage you have elected with Broadridge, you probably do not need to enroll in a Medicare prescription drug plan. Doing so will cost you extra money, and may not provide you with any additional prescription drug benefits. For example, if you enroll in both a Medicare prescription drug plan and one of Broadridge's medical and prescription plans, your Broadridge plan is the primary plan and there is no reduction in premiums. But if your Broadridge prescription drug coverage ends (for example, if you drop that coverage because of a qualifying life event), you may want to consider enrolling in a Medicare prescription drug plan to avoid or minimize Medicare's late enrollment penalty. Please note that if you don't enroll in one of Broadridge's medical and prescription plans, you will not be able to re-enroll until the earlier of the next Broadridge open enrollment or the date you have a qualifying life event during the year.

When Will You Pay A Higher Premium (Penalty) To Join A Medicare Drug Plan?

You should also know that if you drop or lose your current coverage with Broadridge and don't join a Medicare drug plan within 63 continuous days after your current coverage ends, you may pay a higher premium (a penalty) to join a Medicare drug plan later.

If you go 63 continuous days or longer without creditable prescription drug coverage, your monthly premium may go up by at least 1% of the Medicare base beneficiary premium per month for every month that you did not have that coverage. For example, if you go nineteen months without creditable coverage, your premium may consistently be at least 19% higher than the Medicare base beneficiary premium. You may have to pay this higher premium (a penalty) as long as you have Medicare prescription drug coverage. In addition, you may have to wait until the following October to join.
